

Maridav Ghana Limited

Human Nutrition and Health Division
Your Trusted Partner in Human Nutrition &
Health Solutions

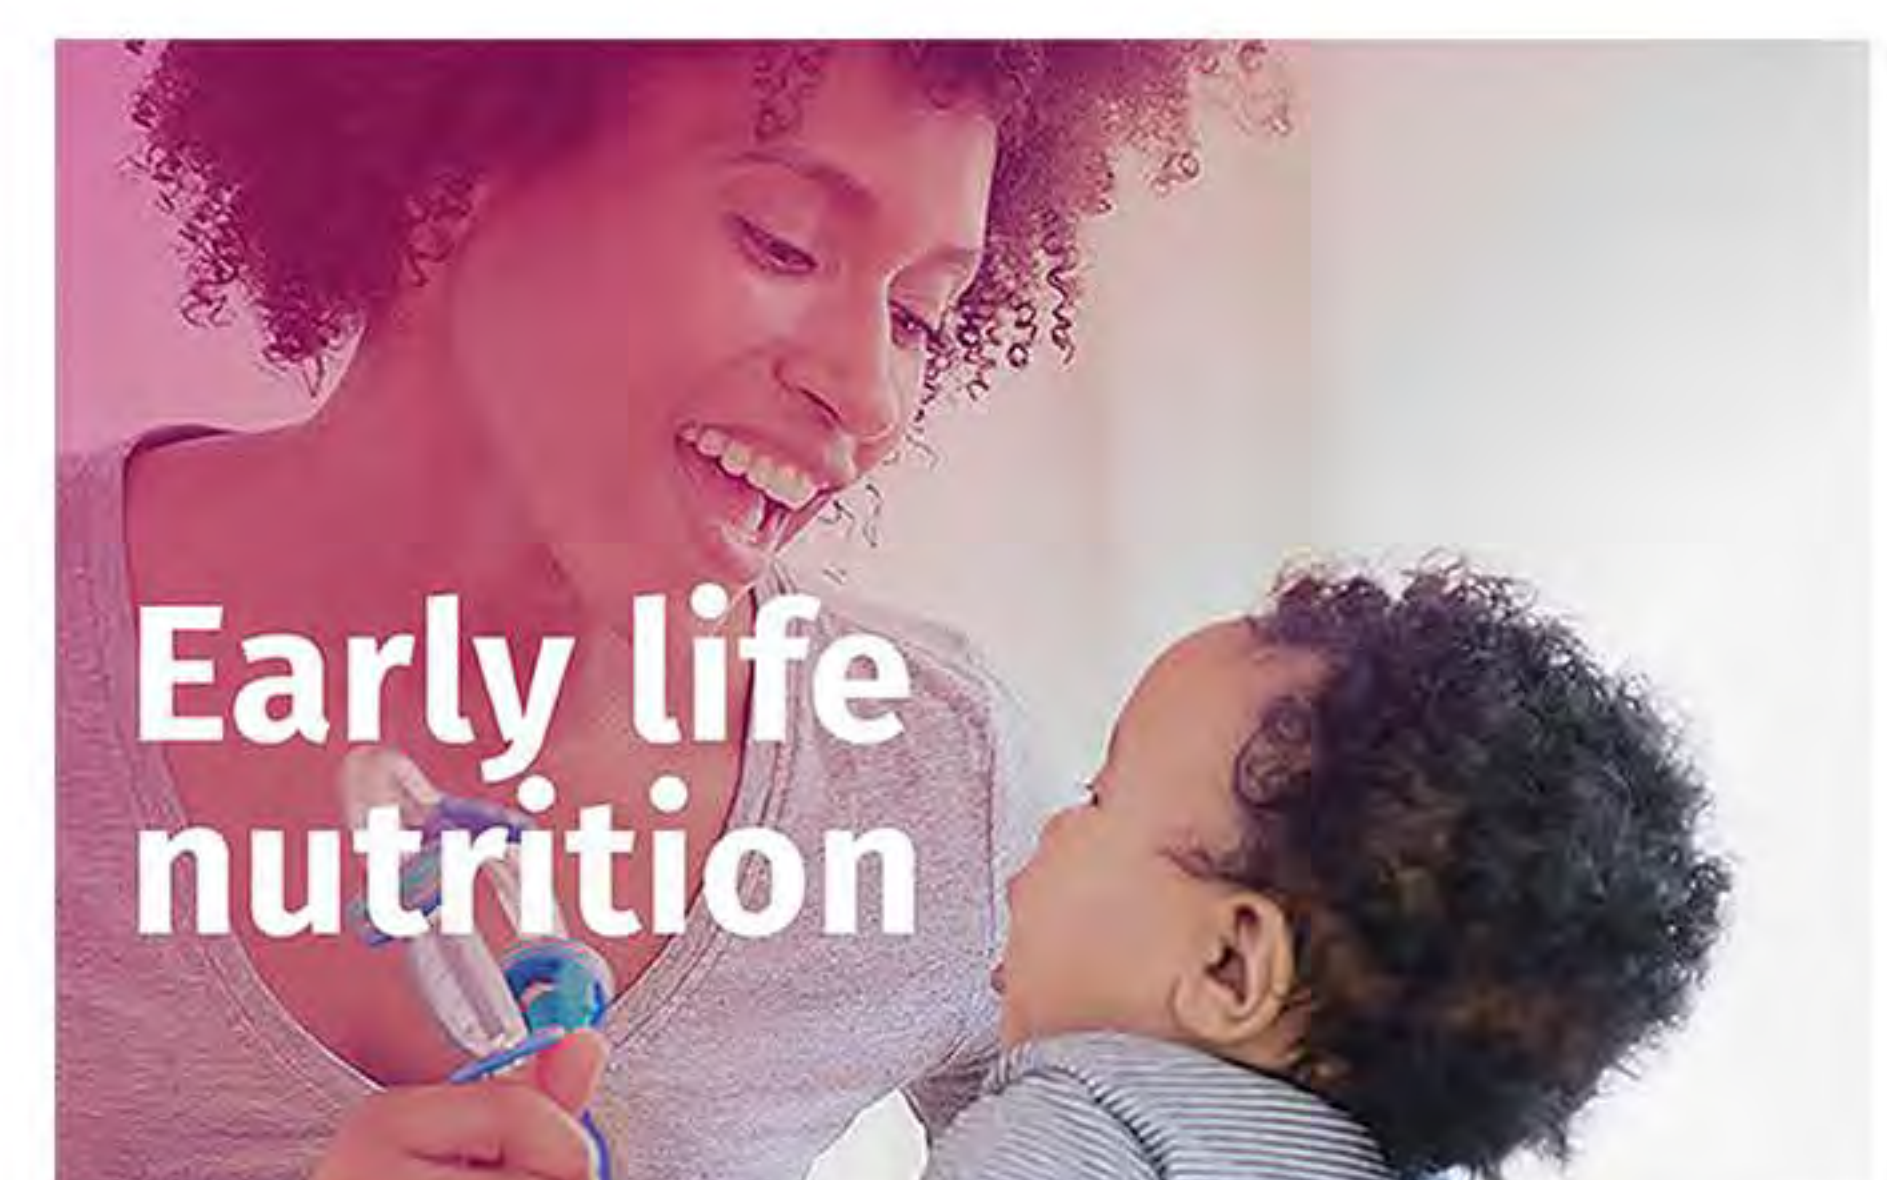

At Maridav Ghana Limited, we are dedicated to improving human nutrition and health through innovative product solutions and expert technical support. With a focus on various sectors, we cater to the needs of Food & Beverage, Nutrition Improvement, Early Life Nutrition, Medical Nutrition, Premix Solutions, Personal Care, and Pharmaceuticals.

Food & Beverage: Maridav Ghana Limited offers a diverse range of ingredients and additives to enhance the quality, taste, texture, colour and nutritional value of food and beverage products. Whether you require natural flavours, sweeteners, thickeners, natural food colours, stabilizers, or emulsifiers, we have the perfect solutions to meet your needs.

Nutraceuticals & Specialty Products: Explore our diverse range of nutraceuticals and specialty products that offer unique health benefits, promoting overall well-being.

Early Life Nutrition: We understand the importance of nutrition during the early stages of life. Our specialized products cater to the unique nutritional needs of infants and young children, supporting their growth and development.

Medical Nutrition Solutions: For patients with specific dietary requirements due to medical conditions, we offer a range of medical nutrition solutions that provide the necessary nutrients while adhering to medical guidelines.

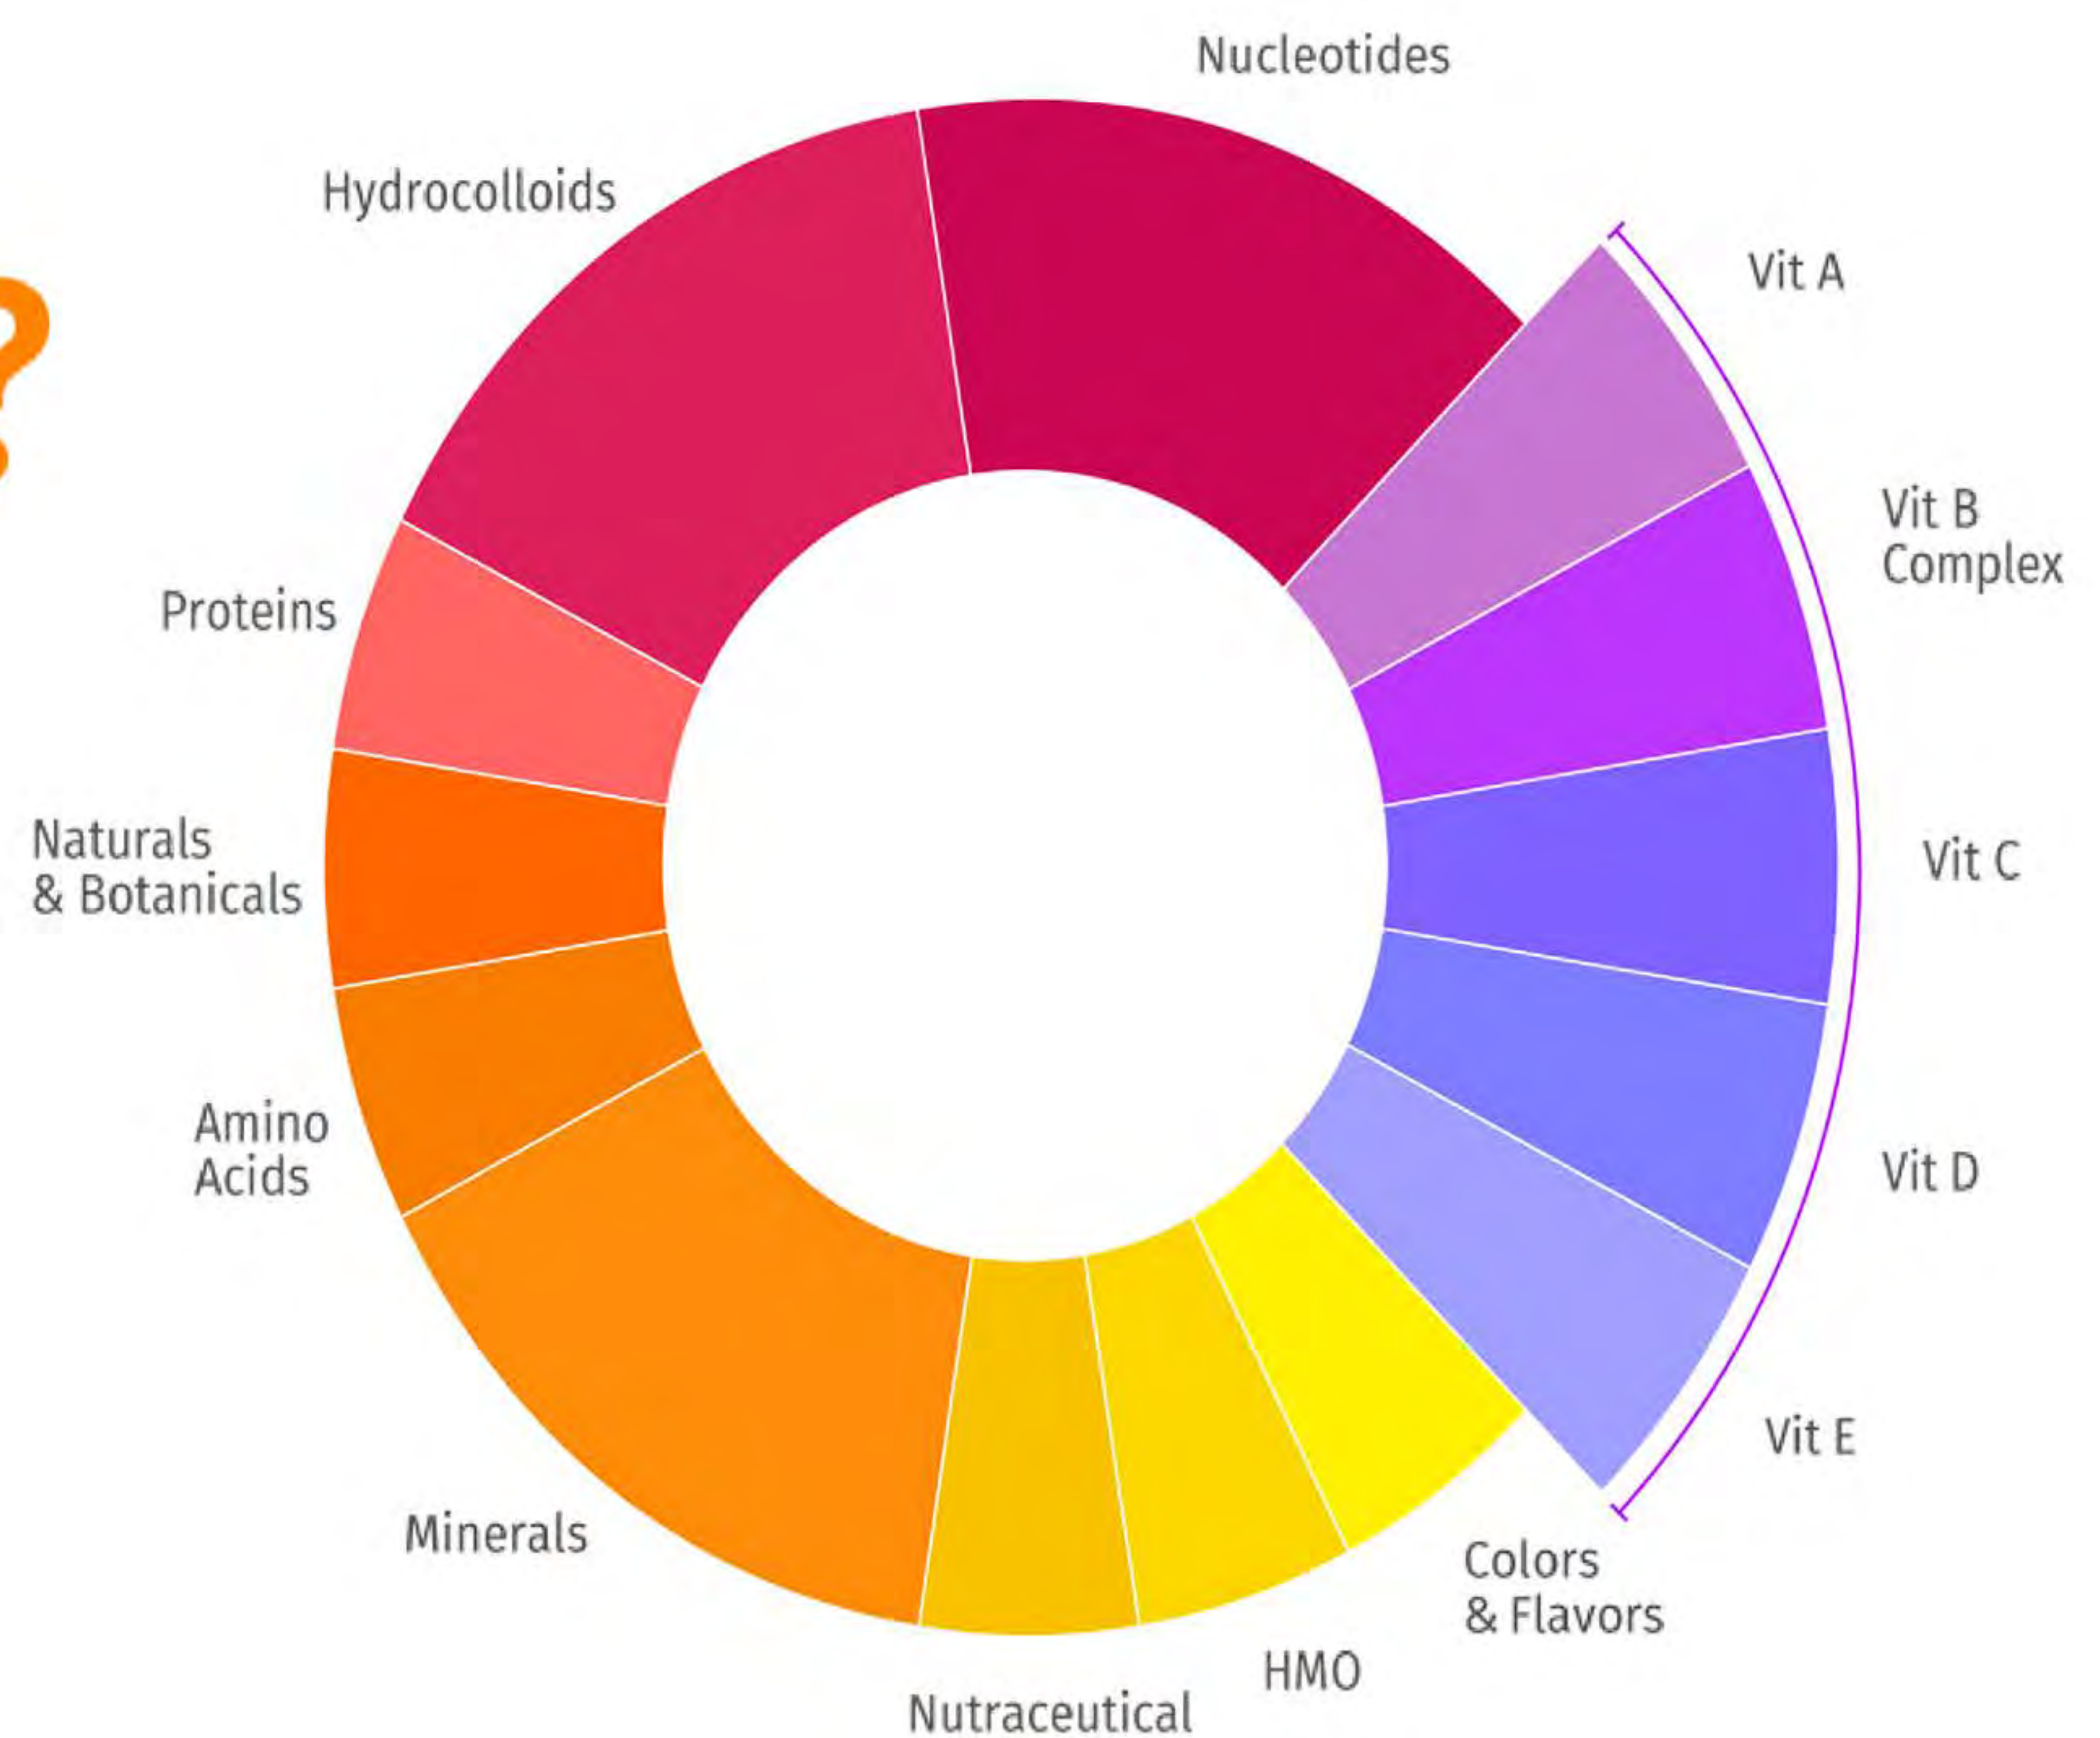

Premix Solutions: Our premix solutions offer a convenient way to incorporate multiple nutrients into your products accurately. Customized to your specifications, these premixes simplify the production process and ensure consistent quality.

What is a Premix?

DSM's Premixes are tailor-made blends, designed with your consumer in mind.

Multiple nutrients are combined in a single uniform custom Premix.

Personal Care Solutions: Our expertise extends beyond nutrition into personal care products. We provide innovative ingredients and formulations for personal care products that promote health and well-being.

Nutrition Improvement (Fortification): Fortifying food with essential nutrients is crucial in combating malnutrition. Our fortification solutions provide vitamins, minerals, and other essential elements that enhance the nutritional value of various food products, making them more wholesome and nutritious.

Our Portfolio

Carotenoids: Carotenoids are natural pigments found in fruits and vegetables. Unlock the power of antioxidants with our range of carotenoid products, essential for overall health and well-being.

Fat Soluble Vitamins: Fat-soluble vitamins (A, D, E, K) play crucial roles in the production of food and other products by serving as essential nutrients and functional additives. They contribute to product quality, stability,

and nutrition, influencing attributes like taste, texture, shelf life, and health benefits in various processed foods, cosmetics, and pharmaceuticals..

Water Soluble Vitamins: Water-soluble vitamins, such as vitamin B and vitamin C, play a crucial role in the production of beverages and other products by serving as essential coenzymes and antioxidants. They contribute to flavour development, preservation, and overall quality, enhancing the nutritional value and shelf life of these products.

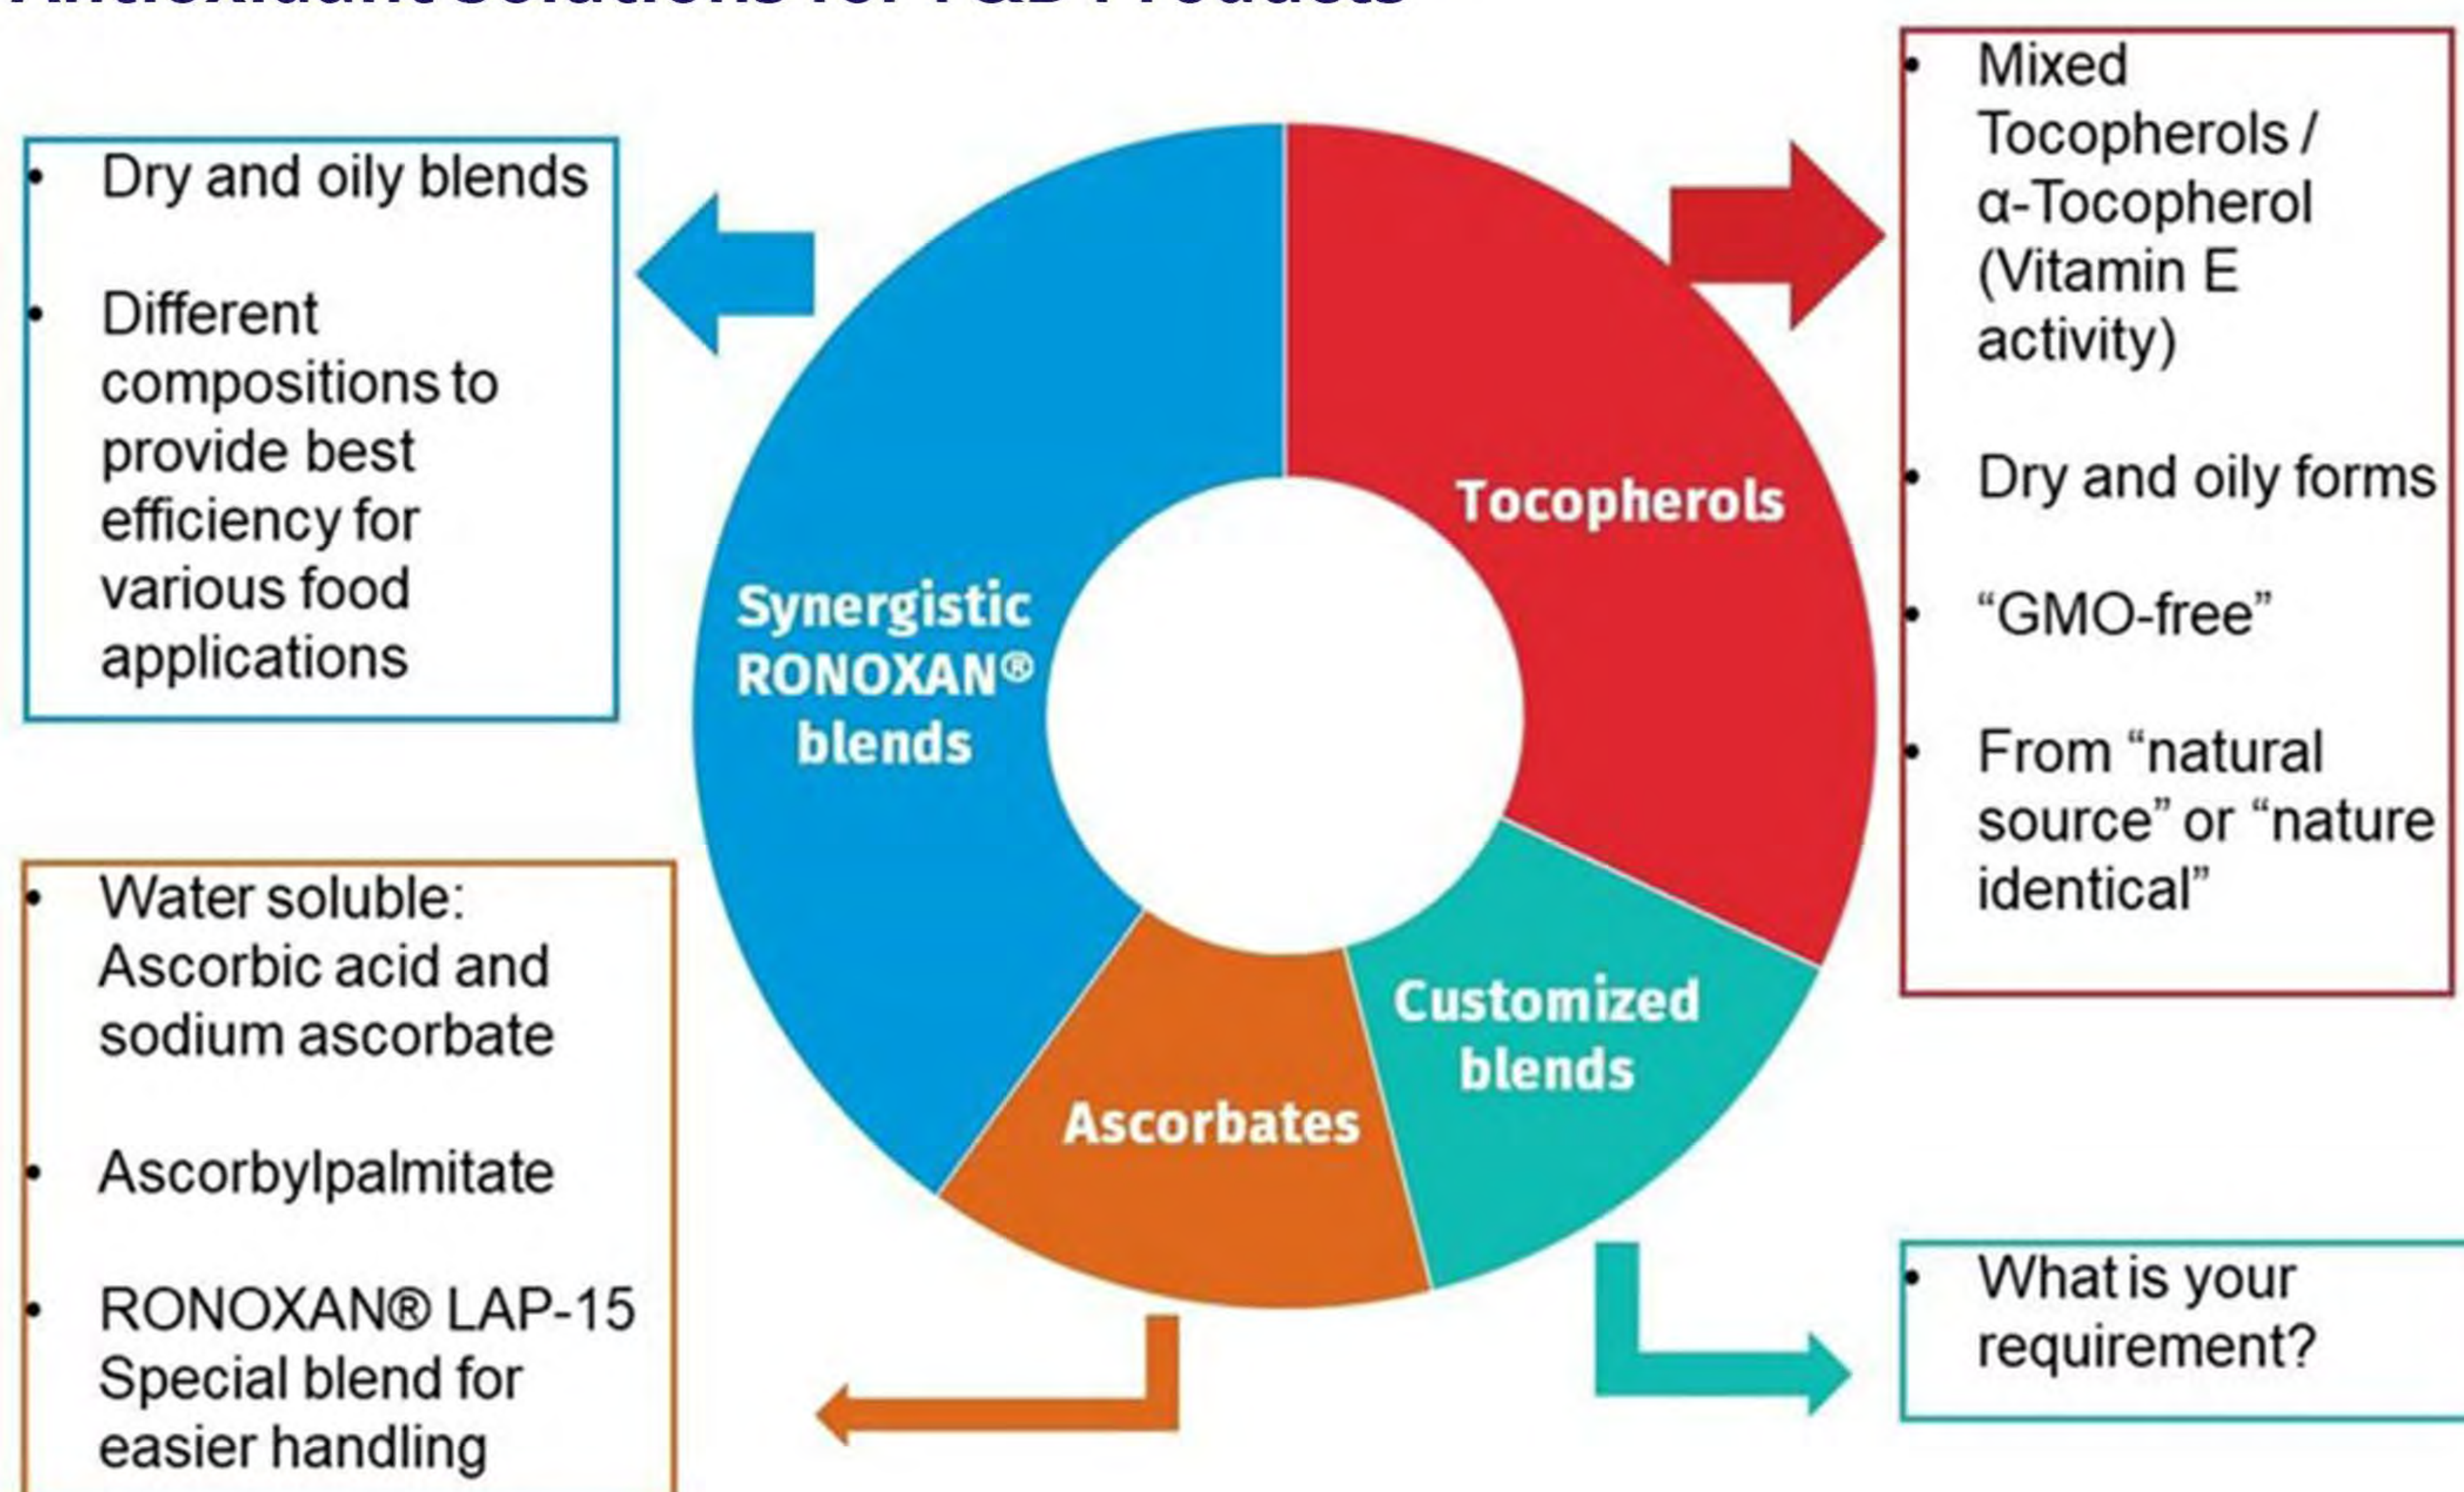

Omega-3 Fatty Acids: Omega-3 fatty acids are crucial for heart health, brain function, and reducing inflammation. Our products provide a concentrated and reliable source of these essential fats.

Antioxidants: Antioxidants are essential in food and beverage production as they prevent or delay the oxidation process caused by oxygen and light exposure. Oxidation can harm product quality, taste, and nutrients. By adding antioxidants to items, these negative effects are stopped, extending shelf life, preserving colour, flavour, and nutrition, and maintaining product stability. Antioxidants counteract harmful free radicals and stabilize molecules, safeguarding the overall quality and safety of the final products.

Antioxidant Solutions for F&B Products

Our Portfolio

Pharmaceuticals: Maridav Ghana Limited offers pharmaceutical-grade ingredients for various applications, including supplements and pharmaceutical formulations, adhering to the highest quality standards.

Hygiene Products

Hygiene products are crucial for cleanliness and disease prevention. They encompass cleaners for surface dirt removal, disinfectants to eliminate harmful microorganisms, and water disinfectants ensuring safe drinking water. Cleaners remove dirt, disinfectants combat pathogens, and water disinfectants avert waterborne diseases. Overall, these products foster healthier settings and lower disease transmission risks.

CLEANING

CIP CLEANING
